How to Scan a QR code with your iPhone, iPad, or iPod touch?

Scan a QR code with your iPhone, iPad, or iPod touch

Learn how to use the built-in camera on your iPhone, iPad, or iPod touch to scan a Quick Response (QR) code.

QR codes give you quick access to websites without having to type or remember a web address. You can use the Camera app on your iPhone, iPad, or iPod touch to scan a QR code.

How to scan a QR code?

1. Open the Camera app from the Home screen, Control Center, or Lock screen.
2. Select the rear facing camera. Hold your device so that the QR code appears in the viewfinder in the Camera app. Your device recognizes the QR code and shows a notification.
3. Tap the notification to open the link a*sociated with the QR code.

We share **Hamornica Tabs** for Free — Our goal is to have a website where everyone can find and share all of their Harmonica Tabs in one central location.Please feel free to look around and post the harp tabs you have or request ones you are looking for.
