

Top 10 bài hát dễ chơi trên harmonica dành cho người mới biết chơi (bao gồm tabs)

Bạn là một người mới chơi harmonica? Bạn đang tìm những bài hát dễ chơi dành cho người mới chơi harmonica? Ok, đó là lý do tôi viết bài viết “Top 10 bài hát dễ chơi trên harmonica dành cho người mới biết chơi (bao gồm tabs)” mà tôi đã từng hợp được từ nhiều nguồn trên internet. Tôi hy vọng chúng có thể giúp bạn thỏa đam mê chơi harmonica của mình.

Tất cả các nốt chủ yếu nằm ở thanh ghi giữa của kèn harmonica: từ 4 đến 7, thông tin dễ chơi nhất.

Đây là những bài hát đơn giản, nhưng dễ chơi tốt, bạn nên kiểm soát tốt tất cả các nốt trong khoảng giữa của kèn, có từng nốt riêng lẻ ngay cả khi di chuyển giữa các lỗ.

It is also advisable to apply articulations using syllables like “TA” and “DA” when doing repetitions of blow and draw notes, respectively. These articulations separate the notes and give them a far more defined starting sound or accent.

For example, when we play a hole 4 blow and then repeat it, instead of blowing twice (with two separate airflows), we shall only blow once, and by using the syllable “TA” as an

articulation, the continuous airflow will be interrupted when your tongue fastly hits the hard palate, separating the notes. As a result, the sound of the repeated note will undoubtedly be clearer.

In 9 of these songs you will see that on the tabs there are as much articulations as repeated notes.

The songs are arranged by difficulty, and each song has a slow practice version and an original tempo version. It will be useful to learn each song bit by bit, and play it all together.

Playing a song with the clean sound is more important than playing it fast.

“This Old Man” and “Jingle Bells” have several articulations and many passages with hole leaps, which make them even more demanding for a beginner.

When you jump holes, you must not move your mouth too far from the harmonica; just try to keep the gap to a minimum to land right at the biggest market of the hole you want to play next. When you jump from holes 6 to 4, you could accidentally play hole 5 by falling short, or hole 3 by leaping too much. At first, problems with playing hole leaps are very common because you may not really have a good reference on the harmonica yet, but you will improve this with repetition!
